

Third-Party Evaluator - National Fund for Workforce Solutions, Redesigned Jobs, Resilient Workers Q&A

1. I am visually impaired and use assistive technology software called Zoomtext. Zoomtext can sometimes be incompatible with certain types of PDF files. I could not type in the Cover Page directly using my software. I copied the page and made it into a Microsoft Word File format and entered the information in that manner. So it may appear slightly different. Will that be acceptable?

Submitting a Microsoft Word document is acceptable

2. The RFQ asks for references in lieu of certificate of liability insurance if not applicable. Do you want a written reference letter or just the name and contact information of the person doing the reference?

We would appreciate written reference letters.
